

Innovative, Collaborative, Sustainable & Creative Value addition

EMPTY SPOOLS RETURN PROGRAM 3R3DTM

To 3R3DTM environmental sustainability is key in all our internal and external processes.

Our program return empty spools has been created, intended to encourage recycling and reuse as well as means of promoting our value offer, also motivated by the various consultations made by our customers over the previous months.

With the aim of **reducing** consumption/generation of the spools, the **re-use** again why they were created or **recycle** properly in locally arranged recycling containers.

Our proposal is based on a win-win-win relationship !

Environment - Customer - Supplier

Our proposal:

Empty spool return

- 1 unit
- 5 units
- 10 units
- 15 units

Incentive *

- Discount 15 % next order of...
